Audi Accessories

Choosing an Audi isn't just a matter of deciding on the model you want; it's about creating a car that suits you perfectly. To help you do that, we've developed a range of accessories that you can add to your vehicle, enabling you to customise it down to the last detail. Like your Audi, all these accessories are professionally crafted and produced to the highest possible standards. And they're all available from your Audi Centre.

Sport and design

A set of low-profile alloy wheels can dramatically affect the way your Audi looks, underlining its style and power out on the road. What's more by reducing weight and dissipating brake heat, they can also influence the way it feels when you're behind the wheel.

18'' x 7.5J '5-parallel-spoke S' design alloy wheel with tyre,
Part number: 8K0073013F8Z8

Sport and design

Fitting the correct seasonal tyres will help your vehicle maintain optimum performance and grip for the conditions on the road. Winter tyres are characterised by a special rubber compound and profile which improves responsiveness, braking effect and traction at lower temperatures, on snow and in the wet. Audi Genuine complete winter tyres have been specially developed for these conditions, so you can be reassured that you're best prepared for the colder months.
